- and much more!

## STS Users Include:

- Municipal Utilities
- Service and Support Organizations
- Maintenance Repair Centers
- Medical Storage Rooms
- Manufacturers with Tooling Storage
- Schools and Universities
- Government Agencies
- and many others!

# GigaTrak® Stores Tracking System

STS provides full inventory management of materials ordered and receipted into the system.  Items can then be checked out of inventory by warehouse / storeroom personnel or by end user's in a "trusted" employee environment.

| GigaTrak® STS Features | Pro | Enterprise |
|---|:---:|:---:|
| Receiving (PO & Unplanned) | ● | ● |
| Part Master, Inventory, & History | ● | ● |
| Inventory by Location | ● | ● |
| Transaction History | ● | ● |
| Supplier Master | ● | ● |
| Purchase Order Entry | ● | ● |
| Bid Requisition Feature | ● | ● |
| Material Check Out and Returns | ● | ● |
| Use a Mobile Handheld Computer to perform a Inventory Check Outs and Returns | ● | ● |
| User Administration/Access Rights | ● | ● |
| Lot Tracking | | ● |
| Expiration Date Tracking | | ● |
| Serial Number Tracking | | ● |

A "Profile" feature allows the checkout of a pre-assigned group of items when using the PC checkout function. Numerous reports let you monitor which employee is receiving materials. STS even allows you to perform a cycle or physical count of inventory.

Our STS includes a barcode label design feature right within the system. Design your own label formats for the user, location, and part.  By adding a label printer, you can print them at your own convenience.  Handheld barcode scanning systems offer a high level of mobility and are available as a part of STS. Users can carry these lightweight yet industrial units to record all transactions throughout the day.  Upon return to the office, all data is then downloaded back into STS. Let us work with you to select the right equipment for your need.

STS Enterprise added in the ability to track all inventory items by Lot Number, Expiration Date, and Serial Number. This allows agencies that require careful tracking to manage inventory specific to any of these criteria.  Simple yet powerful!

## We Make it Easy!
- Simple installation on any Windows 7 or later computer system and network with either an Access or SQL Server database.
- Systems bundles have everything that you need including Software, hardware, labels, and more!
- Customization options available both now and at any time in the future to meet your specific requirements.
